UConn

MORE THAN ONE-QUARTER OF **NCCC**
STUDENTS TRANSFER TO A FOUR-YEAR
SCHOOL

30% of **UCONN**
*students are Community
College Transfers*

MONEY-WISE, YOU'RE ALREADY AHEAD OF THE GAME!

Annual Full-Time Tuition & Fees:

- UCONN -- \$13,250
 - NCCC -- \$4,032
- Just earning your A.S./A.A. in two years before transferring to UCONN will save you a *minimum* of **\$18,430** in tuition and fees alone!

FOUR-YEAR COLLEGE IS EXPENSIVE!

For most **NCCC** graduates, attending a four-year college will be the first time that they will need to borrow money to pay for school.

Student loans are generally a large part of financial aid awards, and need to be repaid, eventually, **with interest.**

In **2014**, the average **UCONN** graduate, for example, accumulated almost **\$25,000** in loans over **four years.**

BUT I ONLY BORROWED \$25,000!

How to turn \$25,000 into \$30,788 (even if you make every payment in full, on time)

COMPOUND INTEREST FORMULA

$$A = P \left(1 + \frac{r}{n} \right)^{nt}$$

amount at the end

Principal (amount at start)
