Museum Treasures: Klimt Landscapes (81910 SPIN 0154)

The spring 2024 Museum Treasures class explores *Klimt Landscapes*, an exhibition at the Neue Gallerie New York on Fifth Avenue in Manhattan. Gustav Klimt (1862-1918) is widely known for his portrait commissions of Viennese society. This major exhibition focuses on the lesser- known landscape paintings he created in Austria and Italy on summer vacations in the last twenty years of his career. Along with oil paintings, the show has prints, decorative objects, and fashion. We will also investigate the museum's permanent collection, comprised of early twentieth-century Austrian and German artworks and other paintings by Gustav Klimt, including his Golden Style masterpiece, *Portrait of Adele Bloch-Bauer I (Woman in Gold)*. Classes are from 1 to 4 pm on Fridays in April, and the field trip to the museum is May 3rd.
